To Whom It May Concern:

Subject: RoHS Directives Compliance - Armacell (Monarch) Products

Dear Madam / Sir,

In accordance with current RoHS (Restriction of the use of Hazardous Substances) and WEEE (Waste in Electrical and Electronic Equipment) legislation enacted by the European Union and adopted by many other countries, Armacell (Monarch brand) products contain no more than 0.01% of:

Cadmium	Mercury	PBDE (Polybrominated Diphenyl Ethers)
Lead	Hexavalent Chromium	PBB (Polybrominated Biphenyls)

We do not intentionally add arsenic, lead, cadmium, mercury, hexavalent chromium, polybrominated biphenyls (PBB), polybrominated diphenyl ethers (PBDE), pentabromodiphenyl ether, or octabromodiphenyl ether to any of Armacell (Monarch) products, with one exception (see information on #10247 below).

Armacell (Monarch) Evalite® #10247: We currently use Decabromodiphenyl (DBDE) as a flame retardant additive in Armacell (Monarch) Evalite® #10247. Decabromodiphenyl ether (DBDE) is the most stable form of ether and is widely used in various plastics. Decabromodiphenyl ethers falls under the category of polybrominated diphenyl ethers (PBDE). RoHS has made an exception to the use of (DBDE), in **new** electrical & electronic equipment (E&E) applications, and in those cases Armacell (Monarch) #10247 does comply with the RoHS act. DecaBDE's are not classified in EU according to Dangerous Substance Directive (67/548/EEC).

Armacell (Monarch) rubber products do not contain any of the compounds listed above the indicated thresholds. The response provided by Armacell LLC (for Monarch brand products) is based upon our knowledge of the raw materials used in the manufacture or closed cell rubber and plastic products.

✓ To the best of our knowledge, all the products manufactured by Armacell LLC (Monarch brand products) fulfill the RoHS & WEEE requirements.

Supplier Name: Armacell LLC (for Monarch brand products)
 Phone #: 440-846-8755
 Print name: Isabel Wright
